

**Please replace claim 5 with the following:**

*f2*  
*bold* 5. (once amended) A molecular adjuvant as claimed in claim 4, wherein  
said selective agonist is a peptide comprising the sequence YSFKPMPLaR, which is  
Sequence I.D. No. 1.

**Please replace claim 6 with the following:**

*f3*  
6. (twice amended) A molecular adjuvant as claimed in claim 1,  
comprising a selective agonist and an immunogen having the sequence  
YKQGGFLGLYSFKPMPLaR, which is Sequence I.D. No. 2.

**Please replace claim 7 with the following:**

*f4* 7. (once amended) A molecular adjuvant as claimed in claim 1, wherein  
said selective agonist and said immunogen are linked by a spacer moiety.

*f5* ( Please cancel claim 8.)

( Please cancel claim 9.)

**Please add new claim 26:**

26. The method of claim 1 wherein the immunogen is an antigenic substance  
selected from the group consisting of peptides, proteins, glycopeptides, glycoproteins,  
phosphopeptides, phosphoproteins, lipopeptides, lipoproteins, carbohydrates, nucleic  
acids, and lipids.
